LORIMER TO KNOW HIS FATE; VOTE WILL BE TAKEN TODAY.

**BELIEVED HE WILL REMAIN;
'CANVAS GIVES FORECAST.**

**BOTH FLORIDA SENATORS LINED
UP WITH THE MAJORITY
WHICH APPEARS TO FAVOR
ILLINOIS MAN:**

WASHINGTON, Feb. 22 — With the Lorimer bribery scandal in its final stages in the senate today it is expected a vote will be taken late this afternoon. The vote will decide the much discussed question as to whether the man from Illinois is entitled to retain his seat in the United States senate.
Friends of Lorimer declare he will retain his seat. A careful canvass shows 46 favorable to his remaining, this number including 11 democrats. It is said there will be 39 votes against his remaining in the senate and that five votes are doubtful.
Senators Bacon and Terrell will vote against Lorimer, while Senators Fletcher and Tallaferra, the two Florida representatives in the upper house, will probably vote to have him remain.

**WASHINGTON REMEMBERED;

HOUSE PASSES NAVAL APPROPRIATION BILL FOR TWO BATTLE SHIPS AND PROVIDING FOR EIGHT HOUR DAY.

WASHINGTON, Feb. 22—Tributes were paid to George Washington in both houses of congress today.
The house then passed the naval appropriation bill providing for the construction of two battleships and for an eight-hour day. The next thing taken up by the house was consideration of the Panama canal fortification bill.

**HOUSE OF LORDS TO YIELD
TO VOICE OF THE PEOPLE.**

**LORD LANSDOWNE GIVES NOTICE
HE WILL INTRODUCE RESOLUTION TO AMEND THE CONSTITUTION.**

LONDON, Feb. 22—The house of lords will yield to the verdict of the people in the recent general election calling for a vote on reform.
Lord Lansdowne gave notice today he intends to introduce at an early date a resolution amending the constitution as to the power of the house of lords.

**NEW CANDIDATE SHOWN
IN RACE FOR SENATOR.**
ALBANY, N. Y., Feb. 22—The 31st senatorial ballot was taken today without result. Sheehan lacks 19 votes of enough for election. John Carlisle appeared as a new candidate in the race and received three votes.

**PRICE OF EGGS IS DROPPING
BECAUSE OF HEAVY RECEIPTS.**

CLAIMED PRODUCTION IS FASTER THAN THE CONSUMPTION AND THE MARKET IS BECOMING LOADED.

CHICAGO, Feb. 22 — Continued heavy receipts of eggs drove the price down a half cent today. The production is increasing faster than the consumption, is the claim made by the commission men. Extras sold today at 21 cents and prime firsts at 18½ cents per dozen.
Hogs were steady to five higher, while cattle were steady to a shade lower. All other markets were closed today because of the holiday.

SAN FRANCISCO, Feb. 22—After a chase across the continent and a hunt lasting seven months, Vincenzo Palato has been arrested here for the murder of William Rice, a millionaire resident of Cleveland, O., last August.

The chase has been an interesting one and has occupied the attention of a number of officers. Palato will be taken back to Ohio immediately.

**RESIDENT OF KINGSTON
DIED THIS MORNING.**

M. Schumann died this morning between 5 and 6 o'clock at his home on Mulberry street, Kingston, after an illness of several months duration. He was about 60 years of age.

Mr. Schumann came here from New York a little over a year ago in company with his wife and purchased property at Kingston, where they have since resided. He was a member of the painter's union and the local branch will probably be in charge of the funeral.

Services will be held at the house at 4:30 tomorrow afternoon, Rev. Thomas R. Adams, pastor of the M. E. Church, South, of Kingston, officiating, and the interment will be made in Pinewood cemetery.

Won't you step in today and look through the very complete line of canned goods that we have just received? You will find that you will want to have some of these in your larder for the emergency. There's nothing like them for the quick meal. While here just take a look at our vegetables.

WASHINGTON, Feb. 22—The new Japanese treaty, which was sent unexpectedly to the Senate late yesterday afternoon by the president, has small prospect of being accepted by Congress. The treaty contains no provision for the restriction of Japanese immigration and this omission is contradicted by the western senators, who will undoubtedly prevent its acceptance.

**AMERICAN WOMAN'S LEAGUE
AIDING MAGAZINE PUBLISHERS.**

A called meeting of Cherokee Chapter of the American Woman's League was held Tuesday afternoon at the public library for the purpose of making a public protest against the proposed postal discrimination against magazine publications. The meeting was well attended and about 20 signatures were secured to a petition to be forwarded to United States Senator D. U. Fletcher, praying that he use his influence to prevent the proposed increase in the postal rates on magazines. This matter is being taken up by the local chapters of the American Woman's League throughout the country and a strong fight will be made against what is considered unjust discrimination against the magazines by the postal authorities.

SPRINGFIELD, Mo., Feb. 22 — James Burge, who lived here as a hermit, 82 years of age, on his deathbed last night told his relatives he had a "little money hidden away." A search by the relatives today revealed a total of \$36,000 hidden on his premises. The money was secreted in all kinds of places. No will has been found.
The greater part of the aged man's life has been spent as a carpenter and contractor until he took up the life of a hermit.

**SCHOOL ENTERTAINMENT
WAS LARGELY ATTENDED.**

**AUDITORIUM FILLED WITH AP-
PRECIATIVE AUDIENCE TO WIT-
NESS THE EXCELLENT PER-
FORMANCE.**

The entertainment given by the pupils of the public school in the auditorium of the new school building Tuesday evening was well attended and a very creditable performance throughout, showing that much care and attention had been bestowed upon the training of the pupils taking part and that they themselves had entered heartily into the spirit of the entertainment and were doing their full part toward its complete success. The stage was decorated with bamboo and draped with the stars and stripes.

The program was opened with a concert recitation by a dozen pupils of the first grade and these little ones were exceedingly well trained and covered themselves with glory and applause. The Indian drill by ten boys of the 2nd, 3rd and 4th grades was also very good.

The third number of the program, Lads and Lassies, by half a dozen girls and a like number of boys from the 3rd, 4th, 5th and 6th grades was one of the prettiest features of the evening and drew hearty applause, especially in the dancing of the Virginia reel. The girls were all attired in white, with blue sashes and ribbons, while the boys wore white trousers and dark coats.

The reading by Miss Meiba Mason of the high school was most excellent and so greatly appreciated that she was obliged to give an encore which was equally well received. Miss Mason has great natural talent along this line.

Meeting of the Muses and Graces, 6th, and 7th grades, was very effective and prettily carried out without a hitch or hesitation in any part.

The Practice for School Entertainment at Skeeter Corner, by pupils of the 8th grade and high school, was fine in both the costuming and the way the various parts were taken. Miss Bessie Quattlebaum made an excellent teacher and all the ludicrous speeches, songs, etc., were loudly applauded.

The entertainment closed with a song, High School Medley, by twelve high school girls and this fully merited the hearty applause which it brought forth as it was very cleverly rendered.

The proceeds are for the purchase of a curtain for the stage.

GAINESVILLE, Ga., Feb. 22 — Sheriff Sargent and his posse early this morning captured a westerner near Dahlonega. The stranger is believed to be one of the gang of bandits which held up and robbed the through train on the Southern road near White Sulphur Springs early Saturday morning.

About \$500 in British gold coin was found in the possession of the man captured this morning. Two other men who are supposed to be close by and to have been in the company of the man captured, have escaped the vigilance of the posse.

**ADDRESSES GIGANTIC MASS
MEETING AND DISCUSSES THE
INITIATIVE, REFERENDUM AND

CHICAGO, Feb. 22—In a speech before a gigantic mass meeting held in the auditorium here today Theodore Roosevelt discussed the initiative, referendum and recall.
The former president of the United States told his hearers that the state of Massachusetts has adopted the recall by making it a part of its constitution.

He declared the best of laws amount to nothing if they are not enforced and said the initiative and referendum would benefit the people. In his speech he also declared he favors the election of United States senators by direct vote of the people.

Col. Roosevelt held the close attention of his audience, but there was a lack of the enthusiasm with which the former president has been greeted on the occasion of former visits to this city.

DELAND, the county seat of Volusia County, is situated 23 miles southwest of Daytona and is reached from the latter city by an excellent hard-surface road recently constructed.

At Deland is located the John B. Stetson University, one of the leading educational institutions of the South. Because of the interest in matters educational Deland is known as "The Athens of Florida."

Stetson University has a faculty of 50 professors and instructors. There are over \$400,000 in buildings and equipment; nearly \$300,000 endowment; a Carnegie Library alone representing an investment in building, endowment and books, of more than \$120,000. The library is the United States Government depository for the State of Florida, and contains over 15,000 volumes. Science Hall, one of the newest of 16 buildings, with its furnishings, represents an outlay of \$60,000. Elizabeth Hall is one of the most beautiful college buildings in the South.

The city has a population of about 3,500, with a thickly settled country adjacent. Deland proper is five miles east of the St. Johns River, on the high, rolling pine land of the great "Orange Ridge" of Florida.

The predominating products are oranges and grapefruit, the estimated crop from this vicinity being over 300,000 boxes this year. Grapes, peaches, pears, Japan persimmons, plums, pecans, guavas, strawberries and other fruits are grown in plenty.

In the way of public improvements are many miles of fine shell roads, an excellent high school, electric lights, a system of waterworks that is owned and operated by the city, supplying the purest water at little cost.

Nine houses of worship testify that Deland is a church-going community. Baptists, Episcopalians, Methodists (Northern and Southern), Presbyterians, Christians and Catholics, besides colored Baptists and Methodists, are represented.

The graded school offers a ten years' course, and the building which it occupies is newly furnished throughout, and is one of the most commodious and best equipped public schools in the State.

The trip from Daytona to Deland is made by automobile in a little over an hour, and there are many pretty drives in the vicinity of the county site. A good road leads to DeLeon Springs, five miles, a historic spot, where 60,000 gallons of water bubble from the earth every minute. From Deland automobiles go south to Osteen, 18 miles, on shell and marl roads; the St. Johns is crossed by ferry near Osteen and cars can then continue to Sanford and Orlando by hard road. There is a shell road from Deland to Orange City, five miles, and a good road from Deland to Lake Helen, a like distance.

LAKE HELEN, FLA.

LAKE HELEN
Surrounded by several pretty lakes and guarded by lofty pine trees is Lake Helen, a winter resort of no little importance. Camp Cassadaga, a spiritualistic camp-ground is situated near Lake Helen and at this place several hundred people make winter headquarters. A large lumber mill and the largest brick plant in the South are located at Lake Helen.

ORANGE CITY
The principal attraction around Orange City is the many handsome golden orange groves. The town is supplied with water said to be the purest in the world, another attraction to visitors. It is at Orange City that passengers over the Florida East Coast Ry. transfer to carriages and drive to Deland. The town is surrounded by land peculiarly adapted to the cultivation of citrus fruits.

By L. C. DEMAREE.
One of Daytona's crowning glories is her incomparable beach. No one who has ever set foot upon its smooth, packed sands; no one who ever pedaled a bicycle over its expanse; no one who ever drove a prancing pair of horses and listened to the popping of their steel shoes upon its asphaltum-like face; no one who ever steered a high-power automobile down the broad stretch of wave-washed and surf-packed sand but realized that it is a world better, a world-wonder. Go stand upon this wide speedway and see the happy souls flit by in joyous mood, and answer whether this is not one of the seven modern wonders.

The Placid, Pellucid Halifax River.

Where think you is water with more picturesque surroundings? Nearly a mile wide, fringed with tropical vegetation, artistic cottages with roomy verandas looking out upon her bosom gamey food fishes in countless numbers beckoning, as it were, to those with rod and reel; her bosom flecked with duck and coot and snowy-winged sea birds, which sit about as if for the sport of bobbing upon the waves; watch that lubberly old white headed pelican pouch a fat mullet, and that fish hawk struggling upward with his floundering load he snatched from the water.

See the beautiful launches, spick and span, with hampers and lockers bulging with refreshments, both solid and liquid, ready for a cruise upon this beautiful surface. Take out your field glass and sweep the river from Ormond bridge to Ponce Park light house, then say whether the Halifax isn't a thing of beauty and a joy forever, and one of the modern wonders.

The Enchantingly Picturesque Ridgewood.

Ridgewood avenue is upon the crest of a broad ridge, straight as the crow flies and the wide spreading branches of the heavy-trunked live oaks extend their giant arms across the magnificent vista, forming an arch, and from these extended arms great festoons of Spanish moss sway as the trade winds from the tropic seas fan them. Looking straight ahead down this white shell street one has the impression of a fairy path with white draperies, but as you move along and cast an eye first to the right and then to the left you see distinguished cottage homes in the most delightful settings.

See the glistening leaf of the grand magnolia which nature has varnished as no artist's brush ever could; and the cabbage palms with their burdens of showy fruit and swaying palmas; see the lovely holly with its exquisite berry; see the climbing vines run riot in the trees; see the cryp- tocamorous forms which gain a foothold on the great oaks and sately palms, and surely you will join in the chorus and say that this is a world wonder for beauty.

Surpassing Beauty of Our Cottage Homes.

No one of Daytona's attractions, perhaps, commands more nearly universal attention and praise than does the artistic cottages. The owners of these charming villas hail from every corner of the country and they bring their own architectural plans and build upon them, and, as the architecture of one section of the country differs from the architecture of another so do our homes differ in outward appearance and structural beauty from one another. There are no monotonous rows of strikingly similar buildings but the eye, as it sweeps by is treated to a kaleidoscopic change which keeps the mind wondering, "What next?"

It is not only the exterior of many of these homes which rivets attention; when they are models of convenience, and the finishing and furnishing give evidence of the elegance and cultivation of those who worked it all out. Indeed, it is the interior arrangement and artistic furnishing and shading, more than the exterior appearance that gives a surpassing charm to Daytona homes. This feature justly merits prominence as another wonder.

Streets and Pavements the Most and Best.

Why the Architect of the Universe chose to give Daytona the most admirable, the most picturesque natural setting of all the cities of the South is not revealed, but that such is a

fact must be apparent to the most superficial observer. With such lavish wealth of natural beauty it became an easy thing for the hand of man to give the finishing touches which have wrought out the colors and outlines of the big picture.

Man did all this in the laying out of the streets with their wide margins of parkage. The entire city becomes a great park, with driveways intersecting, miles upon miles of driveways so good as to attract motorists from all over the continent.

And as for the pavements, pavements that look and act like granite—where else between the eastern and western seas are so many miles in proportion to inhabitants? The pavement question stands with the street as one of the chief drawing cards. Till some unheard of place reports more and better, Daytona throws down the gauntlet to the world.

Squirrels, Flowers, Birds and Fruit. Whatever one's shortcomings and however indifferent or even callous one may be to many things, the mere mention of "flowers and squirrels, birds and fruits" will send a thrill that is reflected in distended pupils and pricked ears.

For every visitor with a spare goober there is a bunny ready to come and accept your gift. He will sit bolt upright and know into the meat, casting furtive, saucy glances at you meanwhile.

Flowers. Usually fresh and blooming the year 'round, you are reminded of Goldsmith's couplet where Smiling spring its earliest visit paid And summer's lingering blossoms are delayed.

In one yard roses of variegated hues predominate; another household has a penchant for the poinsettia and the premises are aflame; another is hidden in a jungle of tall cane. Variety is the spice of life and here is where you find it.

The birds flit in, and with their joyous notes help to give fullness and symmetry to the picture.

As for fruits, choice citrus fruits, Daytona yields the palm to none for quality and quantity per acre. There are scores of citrus groves in proximity to the city, branches bending to the earth with their burdens of luscious golden globes, which for beauty, proficacy and all desirable qualities would truly astonish you.

The Fastest Autos and The Finest Out.

The seventh world wonder, do you ask? Come, whether from Missouri or from Maine, from Kalamazoo or Timbucto, and you will be "shown." Here is where the world's record for speed is broken with every recurring season. Autos, the biggest, the fastest, and the finest are on daily parade and the big show is as free as the pure artesian water from the thousands of flowing wells. It is a continuous show with a constantly shifting scene.

Everything goes, from a 2-horse power up to a 200-horse power, and all degrees of speed from a canter to a two-mile-a-minute clip. You will probably catch the spirit, when you do the roads and the beach are yours. The Florida sunshine is free, the balmy ocean breezes are free, the birds and squirrels and flowers are free, the sparkling fountain water is free and you will have to go down into your wallet only for coin for auto, and bed and board.

This is no fanciful picture; it's all here. It is drawing other thousands and holding them enthralled, it will charm and hold you. Come and see.

PICTURESQUE PORT ORANGE

PORT ORANGE is a pretty little village situated five miles south of Daytona on the Daytona-New Smyrna hard-surfaced road, the scenic highway of the East Coast. The town is located on the Halifax River, and is connected with the peninsula opposite by a bridge.

The town is well laid out and has many pretty homes. A large number of tourists and winter residents make Port Orange winter headquarters, one of the several attractions being the excellent fishing.

A short distance west of Port Orange are the remains of the old Dunlawton sugar mill, a place that is visited every year by hundreds of tourists. One time all the country west of Port Orange, surrounding the old mill, was a vast indigo and sugar cane plantation. The mill was operated extensively in those early days but has been in disuse for forty or fifty years.

A very interesting drive from Daytona is by ocean beach to the approach of the Port Orange bridge, across the barge and then passing through the principal street of Port Orange to the ruins of the celebrated old sugar mill, returning to Daytona by the road on the mainland.

Pawnbrokers and Brass Rings. "These," said a pawnbroker, opening a drawer, "are pawnbrokers' brass rings. There's a couple of hundred of them here, but they'll only last me about a month."

"I hand out one gratis to every poor woman who has to pawn her wedding ring. They resemble wedding rings, you see, and with their help a wife can pledge her gold circlet without the knowledge of her friends."

"I've studied the pawnbroker's business in England, Germany and France, and in those countries, too, it is the customary thing for the progressive dealer to keep a supply of brass rings on hand for free distribution among needy wives."—New York Tribune.

A Post's Wardrobe. The poet Aldrich—he was the subject of a romance with the Countess of Albany and so figures in Mr. H. M. Vaughan's "The Last Stuart Queen"—became very egotistic and ill tempered in old age. "His eccentricity," says Mr. Vaughan, "kept pace with his uncontrollable violence, for, always sensitive to the effects of heat and cold, he had his clothes specially arranged with tapes and ribbons so that portions of them could be removed by his servants from any part of his body should a particular member feel too warm or too chilly."

Grumpy George—I didn't always like dis, mum. Onct I used ter take my meals in a chophouse. The Lady—Well, I reckon a chophouse is a woodshed. You can take your dinner in mine if you cut some wood first.

A Wonderful Clock. A remarkably complicated clock is that of the Beauvais cathedral. It is said to be composed of 92,000 separate pieces, according to a French statement. One sees on the fifty-two dial plates the hour, the day, the week and the month, the rising, the setting of the sun, the phases of the moon, the tides, the time in the principal capitals of the world, together with a series of terrestrial and astronomical evolutions. The framework is of carved oak 8 by 5 meters, or 25 by 16 1/2 feet. When the clock strikes all the edifice seems in movement. The designer wished to depict the last judgment. This wonderful clock is the work of a Beauvaisian, M. Verite. He died in 1887.

Excellent Hunting and Fishing
NEW SMYRNA, FLORIDA

NEW SMYRNA is situated fifteen miles south of Daytona and is an ideal spot reached from Daytona by a hard surface road winding through one of the most picturesque parts of Florida.

With its ancient ruins dating back to a time when the history of man runneth not, interlaced with wires of the modern telegraph and telephone, its miles of shell streets as hard and smooth as a floor and over-arched by hoary forest giants that grew in stately grandeur during the lapse of bygone centuries, New Smyrna is truly a place of romance and rest.

All nature here is very inviting to the tourist and pleasure-seeker. Here too is to be found the best fishing and hunting in the state of Florida.

The people are thrifty, the business men enterprising, and all unite in extending the welcome hand of hospitality to strangers. There are five church edifices for white people and an equal number for the colored population; the town has an excellent high school, a splendid public library, and up-to-date business houses.

There are any number of pretty homes for the permanent population, which numbers close to 2,000, and some very fine winter residences. There are good hotels and boarding houses where you can find accommodations to meet your requirements. Adjoining New Smyrna is as fine a section of vegetable land as can be found anywhere. This land has been divided into small farms which can be bought at reasonable prices. Some of the finest celery grown in the state is raised on this land. All other vegetables grow in abundance, and here, too, is the home of the famous Indian river oranges.

TEN YEARS AGO.

FROM THE GAZETTE-NEWS OF FEBRUARY 23, 1901.

F. C. Allen has purchased a lot of Mrs. Jessie Smith in Seabreeze and will erect a house there.

Don Morris left Thursday for Palm Beach, where he will open a lumber yard for the Bond & Bond company.

F. N. Conrad and J. W. Wilkinson have formed a partnership for the transaction of insurance business. The firm name is Wilkinson & Conrad.

J. B. Moore, who was elected commodore of the Halifax River Yacht Club, has resigned and T. R. McMurray has been elected to fill the vacancy. G. H. Blymyer was elected vice commodore.

In a conversation with Mayor Ludwig he stated that all dogs must be provided with a license tag and owners of canines not complying with the ordinance by March 1 will be arrested and fined.

Last Saturday J. E. Long sold his stock of groceries and the building he has occupied for the past 12 years as a store to Morrison & Smith and this firm will move its other stock and combine it with the Long stock, making one of the largest grocery stores in the city.

A. E. Trowell met with a painful accident while driving home from Port Orange Sunday evening. He had proceeded about a mile when the buggy pole dropped down and the horses started to run, dragging Mr. Trowell along the ground and bruising his side and foot.

JUST GOSSIP

BY THE GOSSIPER.

The Gossiper was in DeLand Tuesday and while at the county seat made a visit to the courthouse and dropped into the office of the county judge for a chat with Judge McCrory. The conversation drifted around to state and county licenses and it was shown by the records in Judge McCrory's office that the first of this month there were 19 hotels in Daytona and a number in Seabreeze and Daytona Beach doing business without state and county licenses. Besides these hotels there were at that time between 40 and 60 other business enterprises being conducted in Daytona without these same state and county permits. There is no particular reason why this condition of affairs should exist at this time except because of neglect on the part of the proprietors of these hotels and business enterprises in taking out the licenses required by law. Judge McCrory says he will be in Daytona next week Monday and ready to collect these licenses. The county judge is not required by law to come here to make these collections, but has decided to do this as an accommodation to those who have not yet secured these permits. He feels that he will be compelled to place the list of those who do not pay by Monday night into the hands of the county solicitor to make collections. While in Daytona Judge McCrory will be at Fitzgerald & Oates office ready to receive payments on these licenses.

Clarence Raech of Covington, Ky., died at the home of his uncle, Stephen Smith, of Seabreeze, Monday of consumption.

The Daytona baseball players went over to DeLand last Saturday and indulged in a running match with the DeLand players. Score, 18 to 25, in favor of DeLand.

At the city election the following officers were chosen: Mayor, G. H. Ludwig; clerk, J. W. Wilkinson; assessor, Geo. E. Porter; collector, H. F. Douglass; councilmen, C. M.ingham, Jr., and Bert Foster.

Graham Thompson has purchased of William Atwood his house and former drug store and will move his bicycle business into the store building. Mr. Atwood bought Mr. Thompson's dwelling house on Bay street.

Sunday evening, returning from a ten minutes walk, G. W. MacKenzie found the back window of his store open and somebody inside. With Mr. Gille he entered the store from the back, the burglar at the same time making his escape from the front door. It was found that a trunk had been rifled and about \$21 taken.

The Order of Eastern Star held a public installation and the following officers were installed by Mrs. Ewing, worthy matron: C.—Mattie Carter; A. C.—Catherine Smith; S.—James Carnell; points of the star—Ada, Mrs. William Ballough; Ruth, Mrs. Parkinson; Esther, Mrs. Frank Peck; Martha, Mrs. Gambing; Electa, Mrs. Chas. Smith.

Pretty chilly for the members of the city hall bench congress Tuesday and Wednesday, but the daily sessions were held on the sunny side of the building just the same.

The movement started by the Daytona board of trade for the establishment of free mail delivery in the city should have the earnest support of every citizen. This is one of the things needed to impress visitors and travelers that this city is up to date and it will relieve in a large measure conditions at the postoffice which are bound to give a bad impression of the city. The mayor will soon begin to rigidly enforce the ordinance requiring all houses to be numbered and some trouble and inconvenience may be saved by property owners doing this duty themselves without waiting for instructions from the city.

THE YACHT WAYFARER HERE

AWAITING RETURN OF OWNER

The trim looking yacht, Wayfarer, of New Smyrna, which was at McDonald's boat yard last week being overhauled and put in the best of condition for a cruise to Palm Beach, is now lying at the Halifax River Yacht Club wharf, awaiting the return of her owner, A. W. Brown, from Chicago, Ill., to which city he went the latter part of last week expecting to be back here the latter part of this week. Mr. Brown intends to cruise in the Wayfarer to Palm Beach to witness the motor boat races in which he will enter his own boat, the Bill, at one time the property of the late Commodore J. H. Allen.

The Wayfarer, which is in command of Capt. Frank Sams of New Smyrna, is a trim, natty looking craft. She is about 55 feet in length by 11½ beam and is fitted with a 40 horsepower Murey-Tregurtha engine. She carries a crew of three and has cabin accommodations for four persons.

FORCE OF LIGHTNING.

An Ordinary Stroke Is About Equal to Fifty Thousand Horsepower.

Frequently surprise is expressed at the effect of a stroke of lightning which splinters a large tree or wrecks a tall chimney, but if the enormous power developed by an ordinary stroke of lightning is taken into consideration the wonder will be that the effect is so small.

Scientists estimate that an "ordinary" stroke of lightning is of 50,000 horsepower. That is force sufficient to drive the largest battleship ever built at top speed. The lightning stroke, however, travels at a speed of 180,000 miles per second. We think we see a flash of lightning, but as a matter of fact what we see is only the memory of a flash. The electrical current has been absorbed by the earth long before we are conscious of having seen the flash. A person struck by a direct flash would never see it.

The average electromotive force of a "bolt" of lightning is about 3,500,000 volts, and the current is 14,000,000 amperes. In such a "bolt" there is energy equal to 2,450,000 volts, or 3,241,182 horsepower. Some day a wizard will arise who will capture and bind a "bolt" of lightning and with it turn all the wheels of a great city.

The time required for the discharge of a "bolt" of lightning is about one twenty-thousandth of a second.—Chicago Tribune.

"Weren't there any there?"

"Sure th' lake wor full av thim, but iv'ry tolme I'd point me run at wan, d'ye moind, another wan w'd get betwixt me an' him an' spoil me a'm"—Toledo Blade.

SEABREEZE and DAYTONA BEACH, two enterprising and progressive towns on the Halifax Peninsula, are geographically one although incorporated as separate municipalities. The towns parallel the peninsula north and south for a distance of from three and one-half to four miles, and extend east and west from the surging seas of the Atlantic Ocean to the Halifax River, the beautiful tide water stream that sets them apart from Daytona with which they have close communion by means of three bridges, as well as a half-hour ferry service.

Seabreeze and Daytona Beach are essentially summer and winter resorts and are making hundreds of new friends every year among those who desire to escape the discomforting extremes of heat and cold, and their hotels and boarding houses are now receiving splendid patronage from the most discriminating class of tourists.

The ocean itself, with its marvelous beach, hard as macadam and smooth as a floor, is the greatest attraction, although earth, air and sky seem to have entered into a combination to enhance its every charm. The beach is the famous automobile race course where every world's straight-away record has been made, and all these records it continues to hold without rival.

The beach has a width of 300 to 500 feet and can be used from two hours after until two hours before high tide, thus giving an average of seven or eight hours for automobilizing some part of each day.

Seabreeze and Daytona Beach each have a permanent population of approximately 1500. Sanitary ordinances are strictly enforced, streets and sidewalks are well kept, and new streets are being opened as fast as the increasing population demands. Besides hotels and boarding houses there is ample cottage accommodation for all winter visitors in both towns.

All the attractiveness of Seabreeze applies to Daytona Beach, the two towns being so similarly situated. The development of Daytona Beach has been fully as phenomenal as its sister on the north, and each year there is a substantial growth. The great sand dunes have been leveled and handsome homes have been built for both winter and all-year-round occupancy.

BIG LOSS IS FELT IN STATE.

IN DEATH OF JOHN ANDERSON; THE FATHER OF GOOD ROADS.

DEATH REMOVES ONE OF THE IMPORTANT FACTORS IN LIFE OF ST. JOHNS AND VOLUSIA COUNTIES.

In the death of John Anderson at Ormond last Sunday the state of Florida, and particularly the East Coast section, lost one of the most ardent supporters of the movement for good roads this section of the country has ever had, and it will probably be a long time before another man will be found who will do as much as Mr. Anderson has done to boost this movement.

Mr. Anderson was practically the father of the good roads movement here and the greater part of his energies were spent in working to improve the conditions and extend the systems of roads.

John Anderson was a much bigger man in East Coast affairs than was fully realized by the majority of residents of this section and his death will be more strongly felt as this fact is more fully realized. Speaking editorially of the death of Mr. Anderson the St. Augustine Evening Record has the following to say:

"It is a sad blow to the people of St. Johns and Volusia counties in the death of John Anderson. Since the pioneer days he has been known and loved by every resident along the Halifax river and in recent years when he came to St. Augustine to manage the Hotel Alcazar the scope of his usefulness was but enlarged and broadened. Everybody knows with what perseverance and success he, with J. D. Price, starting years ago with practically nothing, built up the property and reputation of the Hotel Ormond and developed the surrounding territory until now it is one of the paradise spots of the East Coast.

"Ormond was loath to give him up when he was transferred to St. Augustine, and it was characteristic of the man that he never for an in-

stant lost one iota of his first love by reason of his new surroundings. As in Ormond so in St. Augustine, he was always foremost in matters pertaining to the welfare of the community.

"If he had one ambition greater than any other it was to see the East Coast of Florida provided with a thorough system of good roads. To that end he devoted his energies and ability unsparingly and it may rightly be said that he was one of the pioneer good roads enthusiasts in this section of Florida. He it was who, by inducing the owner of the Ormond garage to make the trip from Jacksonville to St. Augustine some five years ago with several automobiles, demonstrating the need of a finished highway between the two cities. For his efforts in this direction his name will always be gratefully remembered.

"This enthusiasm which was displayed in Florida during the winter season found no let-up the year through. On his return each spring to the Anderson and Price hotel in the White Mountains a program of good roads building was carried out that has given the White Mountain resorts one of the finest systems of hard roads in the world. The moving spirit was John Anderson.

"No one except his most intimate friends, and they only in a slight degree, were aware of his many acts of charity. The poor and needy were never refused, no matter under what circumstances. Now that he has gone there will be many an aching heart, for he occupied a place in the affections and esteem of the people with whom he came in contact that the passing of years will not allow others to fill."

ORMOND-ON-THE-HALIFAX

ORMOND is 5 miles north of Daytona, located on the west side of the Halifax River. The location permits of drainage and perfect sanitation; the elevation is superb and ideal for winter homes. A wide bridge connects Ormond with Ormond Beach.

Many fine homes are maintained on either side of the river, most of them surrounded by subtropical flora and shrubbery, besides thrifty orange and other citrus fruit trees.

Ormond has many attractions—excellent automobilizing, good fishing, safe boating, and many pleasant drives.

At Ormond Beach is located the large Hotel Ormond, and its lesser sister, the Iretton Inn. The former occupies a position overlooking the Halifax, and the latter has as its outlook the magnificent beach and the broad Atlantic.

Besides the broad, smooth beach there are many drives for carriages and automobiles around Ormond—drives through groves of golden oranges; drives through tropical forests to Spanish ruins; drives to an ancient Causeway built by slaves of planters of long ago, and drives to plantations of reputable settlers.

These places are replete with the interest of Southern life and flowers. One of the most interesting of these plantations is at the headwaters of the Halifax and known as Moundgrove. It is one of the finest Moundgroves on the East Coast of Florida and is amid very pretty surroundings.

Moundgrove is on the Daytona-Saint Augustine road.

Lord Decies and His Heiress Bride Attract Much Attention

Photo Copyright by American Press Association.

LORD DECIES, the British army officer who won Miss Vivien Gould as his bride, was often seen in her company before their marriage in New York on Feb. 7. This snapshot of them was made as they were in a carriage on Fifth avenue a few days before the wedding. The nobleman seemed to be very proud of his handsome young companion, and she was every bit as proud of her distinguished looking cavalier. Lord Decies does not look his forty-four years, and few who saw him with his bride would have guessed that he was considerably more than twice her age. Lord and Lady Decies will pass most of their honeymoon in California after a leisurely trip through the south to reach the Pacific coast.

Tunnels Under Chicago River Constructed by a New System

Photo by American Press Association.

CHICAGO has a new tunnel under the Chicago river, and another one will soon be in place. The one recently opened is at Washington street and takes the place of the one constructed more than forty years ago and closed to traffic in 1908. When this tunnel was first constructed it left a depth of water of only fourteen feet, regarded as sufficient for navigation at that time. The tunnel was afterward lowered so that the water had a depth of seventeen feet, but this was declared insufficient by the secretary of war in 1904, and the new tunnel has twenty-seven feet of water above its bed. The second tunnel is to be at LaSalle street and will enable trolley cars to reach the north side without using bridges, which are constantly subject to interruption by steamboats. The picture shows a view of the tunnel ready for being put in place. The tunnel was constructed above water and was floated to its permanent location and then sunk in a channel dredged to receive it. This method of construction has been found to be much cheaper than that followed heretofore, as the soft mud that forms the bed of the Chicago river offers unusual disadvantages to tunneling. The tunnel is a sort of double barreled affair and gives room for two trolley lines. It is made of steel, is 280 feet long, 41 feet wide and 24 feet high. The contract price was \$1,100,421.

The Stone Army.

Mr. P. H. Ditchfield tells in "Vanishing England" the story of the Roll-right Stones, a stone circle in Oxfordshire, which were said once upon a time to have been a king and his army and were converted into stone by a witch who cast a fatal spell upon them by the words:

Move no more: stand fast, stone:
King of England, thou shalt none.

The solitary stone is the ambitious monarch who was told by an oracle that if he could see Long Compton he would be king of England; the circle is his army, and the five "whispering knights" are five of his chieftains, who were hatching a plot against him when the magic spell was uttered.

Our Cities Are Ruled by People In the Rural Districts.

By
BRAND WHITLOCK, Mayor of Toledo, O.

THE greatest problem before the American city today is to become free. No further progress in municipal affairs can be made UNTIL THE CITIES OBTAIN HOME RULE. This is as true of New York city as it is of Toledo. New York must have home rule before it can solve the great problems that confront it.

THE AMERICAN CITY IS A CREATION OF THE STATE LEGISLATURE. ITS LAWS ARE MADE BY PEOPLE WHO LIVE IN THE RURAL DISTRICTS. THE TIME HAS COME WHEN THIS YOKE MUST BE THROWN OFF. THE TIME HONORED BELIEF THAT COUNTRY FOLKS ARE GOOD AND CITY PEOPLE BAD AND THAT THE FORMER SHOULD GOVERN THE LATTER HAS BEEN SHATTERED.

The recent disclosures in Adams county, O., a typical rural community, where more than a thousand persons have been indicted for selling their votes, show how unfit country folk are to make laws for cities. The cities of this country SHOULD MAKE THEIR OWN LAWS. When they do, and not until then, REAL PROGRESS WILL BE POSSIBLE.

For centuries there has existed a popular fallacy that everything that is wicked is to be found in the cities, while all the virtues are to be found in the country; that city people are bad and country people correspondingly good. And because of this belief the cities have been RULED BY THE PEOPLE IN THE COUNTRY DISTRICTS. The laws that govern New York city were made and are made by representatives from the rural districts of New York state, and the same is true of every other city in the United States.

A city cannot be run like a big business corporation for the reason that RURAL LEGISLATORS HAVE RESTRICTED ITS POWERS to such an extent that local government is almost impossible.

NEW LAMPS LIGHTED;

CONDITIONS IMPROVED.

The new flaming arc lights recently purchased by the board of trade and placed at various points along Beach street were lighted for the first time Tuesday night and the improved lighting conditions were noted by all who were on Beach street during the evening. The new lamps thoroughly light the main business section of the city and the change will have a tendency to attract more people to the front street during the evening hours.

*Don't fail to visit the Gypsy tent at the carnival—fortunes guaranteed.

LOW TEMPERATURE

WEDNESDAY MORNING.

MERCURY DROPPED CLOSE TO FREEZING POINT BUT NO DAMAGE RESULTS TO THE FRUIT OR BLOOM.

The temperature fell close to the freezing point last night or early this morning—in fact several parties report their thermometers as recording 32 degrees, but no damage resulted owing to the fact that this low point was not reached until nearly daylight this morning and a breeze was stirring pretty much all night. Much relief is felt by those engaged in the fruit and vegetable growing as it is now likely that the wind will haul to the eastward and tonight not be so cold.

Many grove owners were prepared to fire their groves last night but did not find it necessary. Mr. Stevens, of the Munroe & Stevens firm, remained in the groves all night with a force of men ready to start the fires whenever the temperature reached the danger point, but this did not occur until so near daylight that firing was not thought necessary. Mr. Stevens reports a temperature of 33 degrees.

A freeze coming at this time would cause great damage to the agricultural interests throughout the state, especially to the orchardists, as the citrus trees are in a very tender stage of growth and full of bloom, as are also peach, pear and other fruit trees.

*Dry wood for sale. Drop card to Fred Kingston, Kingston. 70-6t

MUCH INTEREST IS SHOWN IN SPECIAL WATCH OFFER.

CONTESTANT WHO HAS THE LARGEST NUMBER OF VOTES MARCH 3 WILL WIN A SPECIAL PRIZE.

Much interest is being taken by the contestants in the Gazette-News Great Popularity Contest in the special offer of a gold watch prize to the one having the largest number of votes at the close of next week. The watch is now on exhibition in the jewelry store of L. H. Rowe & Co., and is attracting much attention. The watch will positively be given to the young woman contestant having the highest number of votes March 3.

The work done by the contestants at this time not only helps the contestant in the chance to win the gold watch, but brings up the averages on the piano. It is wise to work, and work hard, now.

*WANTED—Friday, three or four room cottage or apartment completely furnished for light housekeeping (except silver) for a month. Address H. J. L., Daily News office, Daytona. 70-7t

KILLS BIG RATTLESNAKE ENCOUNTERED ON BEACH.

Geo. E. Rogers while driving his auto on the beach Tuesday about a mile north of the Hotel Clarendon encountered a big rattlesnake half way across the beach, slowly moving toward the surf.

Mr. Rogers dismounted and, taking a heavy walking stick he always carries in his auto, dispatched the rattler with a few well directed blows, while his little dog, that always rides on the front end of the mud guard, jumped into the auto and crouched under Mrs. Rogers' feet in fear as he did once before at the sight of a big rattler on the Ormond road.

Rattlesnakes have been known to swim the river from the peninsula, but this one seemed to contemplate a voyage to Europe.
